RE: OPEN LETTER REQUESTING DEFERRAL OF ZIMBABWE BID TO REJOIN COMMONWEALTH MEMBERSHIP

Dear Secretary-General

It is with profound respect for the Commonwealth steadfast commitment to justice, democracy, human dignity and mutual aspiration to foster the welfare of Zimbabwean people that I addresses you today duly observing all courtesies and protocols with request to the deferral of Zimbabwe's bid to rejoin membership. My submission is grounded on six compelling dimensions anchored in the principles of the Commonwealth Charter and Universal Declaration of Human Rights. While the prospect of reintegration holds great potential, the absence of democratic governance and the rule of law necessitates a pause with stark realities on ground.

DEMOCRACY

I)

The Zanu-Pf regime has systematically dismantled every pillar of democratic governance to cling to power most flagrantly through the 14--15 November 2017 coup d'état with brazen military takeover in Operation Restore Legacy that ousted Robert Gabriel Mugabe and installed Emmerson Dambudzo Mnangagwa defying both Constitution of Zimbabwe (2013) and Zanu-Pf Constitution. There is nullity to Joint Operations Command oath of allegiance to the constitution by the public endorsement to uphold indefinite decreed rule by the Zanu-Pf Party and that they would not salute or recognize any leader without liberation war credentials. Echoing statements have been habitually broadcast emancipation from Commanders Gen Vitalis Zvinavashe on 9 January 2002, Gen Constantine Chiwenga in March 2008 & 13 November 2017 respectively and Gen Anselem Sanyatwe on 3 July 2024 thwarting any hopes towards restoration of civilian governance. These are breaches to *Sections 3 ,67 ,155 ,156 and 212 of the Constitution* which

directs the securocrats to uphold the constitution, ensure free and fair elections with impartial electoral conduct .12 000 active personnel have been deployed in phases effective 2005 under Operation Maguta, Command Agriculture in 2016 and Forever Associates of Zimbabwe (FAZ), enforcing one party state control with violations to UN Resolution 60/7, UDHR Article 19 and Commonwealth Charter Article IV.

II)

Fundamental Principles of the *UN Guidance Note on Democracy Sections 1, UN Resolution 36/9 and UN Charter Article 1(2)* with Guidelines and Principles pertaining to democratic elections have not been upheld confirmed by 1978 UN Security Council historical unanimous resolutions 445 and 446 to impose sanctions, with same atrocity during 2008 Harmonized Elections after breaches to Electoral Act of Zimbabwe , SADC and Commonwealth Principles for Conducting Democratic Elections prompting UN Security Council debating intervention during civil unrest with 9 out 15 members voting in favor in a process vetoed by Russia and China allies.

III)

Election Observer Missions composed of Commonwealth, African Union, European Union & SADC have periodically exposed at least 23 - 70 % election irregularities in an autocratic environment that lacks transparency and fairness with violence, genocides, missing ballots, ghost stations, raided offices, etc. On 29 March 2008 Harmonized Elections, from 5,934,445 registered voters, 2,503,461 ballots were cast in a 42.2% voter turnout with Zimbabwe Electoral Commission (ZEC) declaring Morgan Richard Tsvangirai (MDC) at 47.9% (1,195,562 votes) and main rival Robert Gabriel Mugabe (ZANU-PF) at 43.2% (1,079,730 votes) but tabulations indicated Morgan Richard Tsvangirai won by 51- 70.2%, clearing the 50% plus one vote rule leading to fraudulent boycotted 27 June 2008 Run-Off.

IV)

A replica was conducted on 30 July 2018 in litmus test with ZEC lack of autonomy from 5,695,706 registered voters, only 4,842,000 casted in 75% turnout with Emmerson Dambudzo Mnangagwa (ZANU-PF) in a plot twist securing 50.8% (2,460,463 votes) whilst Nelson Chamisa (MDC Alliance) was on gratis awarded with 44.3% (2,147,436 votes) .Parallel vote tabulations indicated Nelson Chamisa democratically won by 50 - 62% in a claim dismissed by the constitutional court on 24 August 2018 on allegedly insufficient proof after state tempered with V11s and V23 forms. In a hat trick of electoral fraud, on 23-24 August 2023 same modus operandi was reincarnated with 6,619,691 registered voters yielding 4,561,221 votes (68.9% turnout) which Emmerson Mnangagwa looted 52.6% (2,350,711 votes) whilst Nelson Chamisa (CCC) 44% (1,967,343 votes in a pirate heist of overturned victory manipulation.

V)

Beyond elections there has been legislative mechanisms of Access to Information and Privacy Protection Act (AIPPA) and Public Order and Security Act (POSA) in 2002 which have been dichotomously substituted by Maintenance of Peace and Order Act in (2019), Patriotic Act

(2023), Cyber and Data Protection Act heinously used as devilish tools to harass electorate, media and impose hefty licensing fees. These acts stifle debate and threaten digital media by criminalizing content deemed critical of the state. Pillars of power are in a centralized system blending traditional, military, and electoral influence which have enforced mechanisms which include the controversial installation of an imposter King Munhumutapa and aligned Chiefs without direct lineage.

REFORMS I)

There is no relevance of political parties as the antagonistic system is the major challenge with mono-coverage on media engulfing parties, activists and electorate. The dichotomy concubine opposition is in coercion to formation of coalition to defer elections to 2033 by a 10-year delay from an illegitimate 23-24 August 2023 Harmonized Elections via the bogus illegitimate 10th Parliament joint resolution with violations to *Electoral Act, UN Resolution 36/9 and ICC Rome Statute Article 25.* Multi-democracy is undermined by theatricality and deception to the electorate with redundant parliament failure to uphold the constitution. In humpty dumpty fallout, opposition syndicate participated in 2018 and 2023 Harmonized Elections without reforms or raising alarms in remedy to Constitutional *Court, SADC 44th Summit or ExtraOrdinary, 79th UN Session or 27th CHOGM Session*. Syndicate legislators received hefty packages of US$40,000 loans and US$60,000 cars per term while the Baal judges are handsomely rewarded $400,000 to secure loyalty a ricochet to rendering opposition nonexistent .In buffet looting ,the same legislators hoodwinked to Mnangagwa Precab Farm have no single impeachment effort hence been in revision awarded residential stands from 8th ,9th and 10th Parliament as janitors to extend their terms to 2030 to scrapping of the 2028 elections along with a US$200,000 package in sabotage against Emmerson Dambudzo Mnangagwa impeachment.

II)

Restoration of civilian governance must be prioritized to expose the crisis with independent media suspended and shutdown with worst case scenarios regime resorting to bombing Daily News printing plant in 2001. Any citizen should freely contest any office without hindrance with grant of diaspora vote per *UDHR Article 21*. System is under manipulation with violations to *Commonwealth Charter Article IV and UN Charter Article*. There is hindrance to registration of voters and voters roll, delimitation, nomination court, ballot printing, etc. Paramount is reduction of presidential term from 5 to 4 years each term with maximum of 2 with eligibility revised from 40 to 21 and bar those over 65 from public office per *Section 56.* The Septuagenarian Senate reintroduced in 2005 from 1989 to delay impeachment process must be abolished including the disbandment of harmonized elections with an inclusivity to promote quotas for women, youth and pwd's quota for fair candidacy.

III)

Game changer to fostering non-partisan and inclusive governance is the implementation of independent reforms across critical sectors which range from Media, Health, Education, Security (encompassing Defense, Police, Prison, Intelligence Acts), Electoral, and Judiciary Acts. ZEC is composed of nepotism appointees in a lumberjack puked system with military figures with breaches to Sections *58 & 239 of 2013 Constitution.* There should be an overhaul of laws from the appointment of Service Chiefs and Director of Intelligence Services to ensure transparency with public interviews and retraining of personnel with rehabilitation of colonial courses to integration with diploma/degree international standard protocols.

IV)

Infiltration of main opposition MDC Party and internal cascading rivalry splitting crisis to CCC Party with systemic decay needs overhaul with. This maneuver exacerbated by illegal recalls of legislators and councilors in hullabaloo from MDC to CCC eras of Douglas Mwonzora post-July 2018 purges of recalling 14 MDC Alliance MPs by 31 March 2020 and 105 Councilors by December 2021 while charlatan artful dodger Sengezo Tshabangu recalls of 15 CCC MPs on 3 October 2023, 13 more MPs on 7 November 2023 , 5 Senators on 15 November 2023 and over 70 Councilors by December 2023 triggered by-elections to subvert the electorate's will totaling over 50 MPs and 200 Councilors recalled since 2018.

V)

Under the current state, urgent action is needed to revise judiciary laws m*andated by Commonwealth Charter Article IV, UN Charter Article 21, ACHPR Article 13, and SADC Treaty Article 5*.There is targeted propaganda of indoctrination through National Youth Service training and Herbert Chitepo School of Ideology which extends to students compulsory reciting vexing national pledges introduced in curriculum of the de -facto one party state with violations to UDHR Article 26.Prisoners languish in lice infested jails with blackouts ,inhumanly they stripped naked with headcounts and vulnerable to sodomy whilst there are no food rations ,flushing toilets ,water and beddings whilst females have no access to sanitary wear. There is delay to commencement of trials and the right to bail or parole which is not applicable to court martial offenders.

CRIMES AGAINST HUMANITY

I)

Benchmark record on crimes against humanity by the mafia regime unfolds a crooked grotesque betrayal of Commonwealth *Charter Article II, Harare Declaration*, and *UN Charter Article 1(3)*, a relentless saga of terror with deployment of North Korean-trained Fifth Brigade systematically exterminating 20 000 plus civilians and displacing over 300 000 during Gukurahundi Massacres between 20 January 1983 to 22 December 1987 with crackdown of military operations with repercussions of villages razed, women raped, families in arson burned alive in huts and thousands tortured in mass detention camps in terror dawn attacks

spearheaded by Emmerson Dambudzo Mnangagwa then Minister of State Security whereas *UN Resolution 60/147, ACHPR Article 1, and Section 48* with right to life where breached with and justice must be served on these crimes with persecution under I*CC Rome Statute Article 7.*

II)

6000 plus white owned commercial farms with title deeds were illegally evicted during 2000 raids inducing 300 deaths inclusive of 78 black farm managers and fatal casualties. US$3.5 billion compensation pledged by the regime in 2021 has not been implemented with pending justice and not a diplomatic immunity for genocides committed. Foundational atrocities set the stage for brutal 24-25 June 2000 Parliamentary Elections and 9-10 March 2002 Presidential Elections with 8300 deaths in overturned 56.2% opposition victory with introduction of repressive laws as *Access to Information and Protection of Privacy Act (AIPPA), Public Order and Security Act (POSA)* in breach of U*DHR Article 20* and *ICCPR Article 21*. In accumulation ,during *29 March 2008* Harmonized Elections 4 800 opposition activists were butchered with 800 000 tortured during military lock down with UNSC addressing the crisis on *23 June 2008* ahead of fictitious 27th June 2008 Presidential Run-Off and African Union 11th Ordinary Session on 1 July 2008 castigating for lobbied dialogue facilitated by SADC ushering a Global Political Agreement on 15th September 2008 with investigations on heinous crimes against humanity prematurely suffocated with formation of Government of National Unity on 13 February 2009 in breach of UN Resolution 34/175, UDHR Article 3 and ACHPR Article 4.

III)

With stern internal rivalry as curtain raiser on 23 June 2018, a bomb exploded during a coup attempt at white city stadium with an official capacity of 15000, with 49 injuries from fragments and 2 deaths .Without consideration to the referendum cast by 3,316,082 of voters which enacted the 2013 Constitution, Joint Operations Command in deployment on 1 August 2018, used live ammunition to disperse protesters during elections, killing 6 unarmed civilians and 37 fatal injuries with direct interference to 31 July 2018 Harmonized Elections with overturned final results declared on 3 August 2018. Commission of Inquiry established and held on 18 December 2018 following Statutory Instrument 181 of 2018 with no prosecutions or accountability from recommendations chaired by President Kgalema Motlanthe of South Africa. No prosecutions have been done after General Solomon Mujuru assassination among others.

IV)

Post guerrilla warfare with ceasefire facilitated by 21 December 1979 Lancaster House Agreement, there is lingering presence of landmines in Zimbabwe with 35000 casualties and 3280 deaths past 45 years in contravention*s Articles 3, 5, 25* of the Universal Declaration of Human Rights, *Amended Protocol II of the Convention on Certain Conventional Weapons (CCW)* and Mine Ban Treaty Article *1 infringe* right to life, safety and livelihoods. Furthermore, the tyrannical regime has breached *Section 48 of Constitution, Rome Statute Articles 7,8,25 & 28, Arms Trade Treaty* with procurement of arms and sponsoring terrorism against unarmed

citizens. The horrific squid game by state has forced over 5 million Zimbabweans to flee in exile with the majority in South Africa as refugees with revoked asylum rights in breach of UDHR Article 14 where they face persecution, deportation, burned alive in xenophobic attacks as late Elvis Nyathi on 6 April 2022.

V)

In late October 2008 a military "Operation Hakudzokwi" led by General Constantino Chiwenga commenced in Zimbabwe Marange diamond fields intensifying over three weeks until November 16, 2008 with helicopters from Mutare 3 Brigade base firing teargas and live ammunition in support of ground troops targeting artisanal miners with over 1200 deaths. These acts including extra-judicial killings and efforts to conceal evidence summons urgent investigation as villagers discovered 22 decomposing bodies near Chiadzwa Dam which by 9 November 2008 were buried in a mass grave under military supervision using coerced miners and bulldozers in January 2019 unscrupulous executive powers were exercised by Emmerson Dambudzo Mnangagwa to deploy forces against civilians over protests of hyperinflation triggered with fuel hikes. Live ammunition against protestors resulted in 17 deaths ,78-gun wounds and over 2000 arrests.

VI)

27 000 Prisoners composed of Persons with Disabilities, Students, Juveniles, Pregnant and Nursing Mother languish in overcrowded cells with 2700 deaths granted pauper's burials annually with breaches to UN Nelson Mandela Rules, UN Convention Against Torture Article 2 & African Union Kampala Declaration. There is misconduct by officials with behavior unfit for office exemplified by 75-year-old VP Colonel Kembo Mohadi in sexual escapades with students alongside chasing spouse Tambudzai Mohadi publicly with an axe in 2019 while his counterpart VP General Constantine Chiwenga catalyzed the amputation ex-spouse Mary Mubaiwa and access rights with militant denial to mutual child custody. In relation Moreblessing Ali an activist was abducted and dismembered on 24 May 2022 and her emblems unburied for 2 years with lawyer Job Sikhala illegally remanded by fabricated charges for 595 days on representing the case in courts of law for justice with breaches to UDHR Article 19. International Journalist Hopewell Chin'ono faced 94 days detention without trial, whilst on 9 March 2015 Journalist Itai Dzamara was abducted without a trace to date and Journalist Blessed Mhlanga in the winnowing fork of ruthless regime currently detained 50 days without bail – all these being violations ACHPR Article 21, UDHR Article 3, CESCR Article 11 and ACHPR Article 4.

KLEPTOCRACY AND CORRUPTION I)

Zimbabwe has an external debt of US$14 billion and domestic debt of $5.5 billion, spiral with US$15 Billion Revenue vanishing in the Marange Diamond Fields scandals and precious minerals smuggled daily via diplomatic passports defying FATF , AUCPCC Article 8,UNCAC Article 31, ICC Rome Statute Article 28 and UN Resolution 58/4— deflecting blame game onto a propaganda of sanctions with Emmerson Dambudzo Mnangagwa empting reserve bank vaults with unknown

offshore deposits and lack of declaration of assets by public officers in violations to section 198 of Zimbabwe Constitution. There has been introductions, redenomination and abandonment of at least 9 currencies in heist mainly between 2006 Operation Sunrise to 2024. International Monetary Funds (IMF) loans, World Bank, African Development Bank projects have been diverted to elite coffers, breaching UNCAC Article 23 and Criminal Law (Codification and Reform) Act Section 113 of Zimbabwe. After scandalous bond sales and mineral resource leveraging, the regime tasked negotiators AFDB President Akinwunmi Adesina and former Mozambican President Joaquim Chissano to cover up with international creditors.

II)

Transparency International has ranked Zimbabwe 149th,underscoring the lack of governance reforms, accountability and corruption citing contraventions to AUCPCC Article 5, FATF Recommendations 3 and 4, and UNCAC Article 31 with over 12,000 companies shut down, 90 % unemployment with over 8 million job losses catalyzed by Indigenous and empowerment act mono-policy with 4,000 title deed owned farmers illegally evicted .There is breach to International Convention for the Suppression of the Financing of Terrorism Article 8 with misappropriated foreign and local debts lacking from IMF and World Bank oversight that include $4 billion to the African Development Bank, €220 million to the European Investment Bank, $3.8 billion to China, £900 million to the UK, $450 million to the US, €650 million to Germany, ¥22 billion to Japan, R7 billion to South Africa, P 3.3 billion to Botswana and MZN 750 million to Mozambique. Corporate debts add further weight, including $1.7 billion to Hwange Colliery Company, $850 million to Ziscosteel, $1.4 billion to Essar Africa Holdings, $550 million to Anglo American, $220 million to Rio Tinto, $45 million to Implats, $75 million to Lonmin, $55 million to Caledonia Mining and $1.6 billion to Metallon Gold which contradicts Commonwealth Charter Article VI, Commonwealth Principles on Combating Corruption, African Union Convention on Preventing and Combating Corruption (AUCPCC) Article 5, United Nations Convention Against Corruption (UNCAC) Article 5.

III)

US$12 Billion Revenue is misappropriated annually across parastatals and private sector without revenue accounting with breach to Section 17 of the Public Finance Management Act, whilst the incompetent Zimbabwe Anti-Corruption Commission (ZACC) undermines section 10 of the Anti-Corruption Commission Act, lacking prosecutorial power through lax systems and bribes. Matabeleland Zambezi Water Project of US$864 million loan from Export-Import Bank of China have not been declared. Auditor General reports exposes health tax on mobile operators, generating over US$50 million yearly from 14 million subscribers vanishes instead of funding hospitals, leaving them without drugs or equipment. Zimbabwe Broadcasting Corporation diverts funds amid 18-hour blackouts charging US$1,000 per year per household with 3 million subscribers flouting the Broadcasting Services Act Section 38. Investors have not been spared ,with Zanu-Pf Provincial Chairman and MP Temba Mliswa illegal seizure of Noshio Motors and Benbar Companies including properties with unlawful shares which are owned by Paul

Westhood and worth US$25 million in current market with breaches to companies act,property rights section 71 and ,ICCPR Articles 9 .Didymus Mutasa, then Minister of State for National Security and Zanu PF Secretary amplified nephew Temba Mliswa leverage over courts and police denying Paul Westhood justice with violations to African Charter Article 14 and UN Business - Human Rights Principles.

IV)

Wicknell Chivayo a convict of fraud and money laundering owns Intratrek Zimbabwe Pvt Ltd with US$5 million Gwanda Solar Fraud, Dolintel Trading Enterprise in US$40 million ZEC tender scam, Edenbreeze Pvt Ltd in car spending spree plus Hardwork Investments $88 million Goat Scheme flop. Tied to Ren-Form CC, Wicknell Chivayo was exposed by Financial Intelligence Units on R800 million of R1.1 billion from Zimbabwe's Treasury for 2023 Harmonised Elections materials amplifying rigging fears. Renform CC went on to print ballots for South Africa, Namibia and Mozambique 2024 Elections. These scandals intersect with Kudakwashe Tagwirei and Emmerson Mnangagwa who monopolize fuel contracts through Trafigura worth US$ 300 million monthly through the Reserve Bank and slapped with U.S. sanctions for corruption. Same cabal misappropriated US$3 billion budget for Command Agriculture 2016 program meant to boost farming after 2009 ruthless displacements in trio with Billy Rautenbach Green Fuel US$600 million ethanol project.

In the felony- Emmerson Dambudzo Mnangagwa, Envoy Uebert Angel and syndicate through investigative journalism in 2023 by Aljazeera News were exposed of laundering US$1,2 Billion via smuggling. The corruption web deepens with Henrietta Rushwaya in a gold bust of 6 kg gold acquitted together with Minister Prisca Mupfumira US$94 million NSSA theft case withdrawn before plea. Covid 19 scandals escalated with Min Obadiah Moyo defrauding equipment worth US$60 million in harmony with Drax International owned by Delish Nguwaya. Ex-Mines Minister, evaded probes for $15 billion in missing diamond revenues whilst Scott Sakupwanya and Passion Java display crooked wealth.

REGIONAL INSTABILITY AND INTERFERENCE

I)

SADC relevance begs immediate disbandment with its compromised stance evident in its failure to act on 23-24 August 2023 Harmonized Election 23- 74% irregularities with muted response to ZANU-PF regional meddling of election rigging, troop deployments and civil unrest without repercussions of mass genocides. There is turmoil in region after Zambian President Hakainde Hichilema was publicly threatened by the regime with overwhelming evidence after SADC EOM Reports, including EOM Chairman Dr Nevers Mumba, for condemning election flaws.Extra-Ordinary Summits did not adjudicate a Tribunal Court or ICC with Interstate Tensions and collapsed bilateral relations or make recommendations to ICJ with reference to ICJ Statute Article 34 and 38.

Gun toting cabal has bolstered its deep ties with South African ANC rooted in liberation struggles and sustained through mutual electoral support evidenced by 2008 GPA & GNU, 2018 Monthlanthe Commission of Inquiry, 2023 and 2024 Harmonized Elections has perpetuated governance failures and economic collapse since 2000 driving 7 million migrants. This exodus, exacerbating xenophobic unrest in South Africa reflects ZANU-PF's destabilizing influence, enabled by the ANC's reluctance to challenge its ally despite regional strain.

II)

SADC States have succumbed to direct interference and instability by revolutionary parties in unison solidarity with contravention of Commonwealth Charter VIII on democratic principles and protocols with Zanu-PF at the forefront, orchestrating efforts to bolster FRELIMO Presidential Candidate, Daniel Chapo on October 9 2024 Elections with numerous supporters including ANC (South Africa) and MCP (Malawi) residing near neighboring borders issued with Mozambican identity cards, registered to vote, and fraudulently cast ballots. Indisputable video evidence, photographs, and testimonials emerged after the media caught them in the act, exposing a coordinated cross-border operation, amid broader election irregularities of ballot stuffing and triggering civil unrest in Mozambique with 7000 deaths, 420,000 internally displaced. In a reverse fixture, the same modus operandi was integrated into the Namibian general election on 27 November 2024 extended to November 30 in some areas, replicating the tactics of Zimbabwe harmonized elections on 23-24 August 2023, with a plot twist an observer mission headed by ZEC Chairman Priscilla Chigumba under SADC in duplicity tabulating for Swapo Party a consistent pattern of electoral interference with ballot printing tender awarded to cartel Wicknell Chivayo undermining the credibility of regional oversight under Zimbabwe's influence .

III)

Historical interventions stoking civil unrest actionable under ICC Rome Statute Article 8,UN Charter Article 41 and UN Resolution 1 exacerbate the crisis with Zimbabwe's 's reckless intervention in the Democratic Republic of Congo (DRC) bypassing parliamentary approval with a unilateral command of 11,000 troop deployment to prop up a rebel coalition led by Laurent Kabila representing the Alliance of Democratic Forces for the Liberation of CongoZaire (AFDL) with atrocities of 70 000 ethnic genocidal against ethnic Tutsis and Hutus with 310 000 refugees a clone exodus of 1987 Gukurahundi with breach to UN Charter Article 2. International Justice stands at the fulcrum with war crimes from these deployments under Rome Statute Article 5 and ACHPR Article 23 with conflicts involving Zimbabwe Defense Forces. Over 7 Million immigrants/refugees drawn mostly from Mozambique, Angola, DRC, Malawi, inclusive of the charlatan Zimbabwe are under random xenophobic attacks in South Africa with breach Commonwealth Charter Article VIII, UN Charter Article 2 and UDHR Article 14.

SOCIAL SERVICES

I)

Hyperinflation, a repercussion of kleptocracy and corruption shuttered 12,000 companies with 90% unemployment impact. Regime's free education manifesto touted since 1980 became profit-driven, with 1.2 million dropouts and 37% teen pregnancies with 60% of rural schools lacking teachers flouting ICESCR Article 13. Over 2000 Non-Governmental Organizations have been shut down comprising 291 Private Voluntary Organizations (PVO) as the regime politicize aid stranding 12 million citizens with inclusion of amendments of PVO Acts. Traffic accidents induced by pothole-ridden roads kill over 3000 annually. Cholera outbreaks , Dysentery and Typhoid have killed over 60 000 with 4 million affected .US$ 3,8 Billion revenue is collected annually from 2.3 million customers by municipal authority yet drinking water is contaminated due to a lack of purification chemicals despite exorbitant water monthly fees, with burst sewer pipes breeding diseases whilst minimum 72 hrs water shedding schedules and indefinite for some areas with 68% boreholes breaching UN Resolution 47/19 .12 million citizens face hunger ,whilst pensioners receive a paltry monthly US$7.60 from the National Social Security Authority (NSSA) and employees exploited with minimal US$0.10 hourly wages whilst war veterans unleashed as mercenaries in crimes against humanity remain homeless and jobless.

II)

In defiance of Commonwealth Charter Article XIII, United Nations Covenant on Economic, Social and Cultural Rights (UNCESCR) Article 12 and Universal Declaration of Human Rights (UDHR) Article 25, hospitals lack staff with 80% of doctors and nurses striking and alternating to diaspora opportunities. Amidst a low mortality rate, hospitals have no MRI or Radiotherapy Machine.There is scarcity of basic drugs as Paracetamol and extinction of chronic illness drugs among counterfeit family planning drugs resold at the black-market. HIV patients with current 26% rate are in short supply of ARVs .A unit of blood compulsory and involuntarily donated by students is resold at hefty prices between US$400–US$500 .At least 48 pregnant mothers die during maternity labour with no standard services and involuntarily cesarean operations ,inclusive 5–10 pediatrics deaths in public hospitals, with those in remote rural areas face hospitals at least 12 hours away via poor dust roads, worsened by climate change-induced erosion.1,2 million Person's With Disabilities (PWDS) lack accessibility to discriminatory state institutions ,parastatals and private sector including transport services none friendly user with violations of UN CRPD Article 25.

III)

Blackouts 18 hours/day hit Parliament, courts, hospitals, morgues, and industry. The system has failed to purchase garbage collection vehicles or firetrucks despite budget allocations, while fire services exacerbating emergencies breaching Section 73. With no formal employment ,7 million SMEs and Vendors have goods impounded by city councils under local government executive orders. Local government is on mass destruction of properties in continuous exercise of

Operation Restore Order / Murambatsvina without notice or compensation with 8,2 million displacements and 3 million mass destructions with rising street kids and homeless lacking food, shelter, and clothing .Lockdowns, curfews, and arbitrary arrests—often unnecessary— instill terror; the regime forces citizens, including street kids, to rallies, bussing them unwillingly, while women twerk involuntarily for bread and rice from foreign aid, can't afford sanitary wear, and now trade sex for food rations—prostitutes in town offer free services to police to avoid arrest.

IV)

In summation l move a motion towards facilitation by Commonwealth and International Community to convene an all stakeholders external conference pre-conditions to reentry with similar goals to 1978 Lancaster House Agreement and Zambia Talks for an inclusive Transitional Government 2025 to nullification of 10th Parliament to Fresh Elections 2026.Zimbabwe lacks fair leverage internally, as South Africa's 2008/9 mediation tied skewed revolutionary ties to militant ZANU-PF. There should be a waiver and endorsement of US$120 million funding by Member States and International Support to prioritize a New Constitution by Referendum with Voter Education. Leveling of political playfield is key with general amnesty for all political detainees and political refugees ahead of reforms and fresh polls. The International Criminal Court (ICC) must prosecute all crimes against humanity under Rome Statute Article 7 as well the International Court of Justice (ICJ) addressing state-sponsored violations to regional interference per ICJ Statute Article 36(2) and UN Charter Article 39 with chaos spilling beyond borders.

I move a motion for 50 000 voluntary medical teams from member states to assist the dire situation on the ground with a transitional government. Member States and International Community must consider dividend 500 000 annual seasonal skilled worker recruitment, residence quota and scholarships as blanket visa revocations and entry restrictions target ordinary undermining the principle of individual justice, values of fairness and human rights of whom may have no connection to the egocentric regime actions. Deferral is a clarion call for redemption, a stand for the voiceless millions yearning for a worthy government with 78% of Zimbabweans desiring democratic reforms.

I beseech you to mandate verifiable strides across these six realms before extending the hand of membership. Henceforth I have attached electoral observer mission reports that highlight electoral and democratic shortcomings.

Yours sincerely

Zvaringeni Samuel Chasi
Human Rights Activist
Republic of Zimbabwe
